To Whom it May Concern,

I worked with Stephanie on the Mr.Peabody and Sherman show (as her supervisor in the post department). This was a unique project, presenting many creative and technical challenges. No matter how hectic the situation was, Stephanie always kept a level head, was proactive and applied herself to the fullest extent. Stephanie also managed several independent projects within the studio, leading small teams to create libraries and systems of organization for different animation departments. I was really impressed that such a strong artist was also so production savvy.

Would be happy to work with Stephanie again, an A-lister in my books!

Feel free to give me a call!

Sincerely,
